Alice is on a space flea market.  
She wants to buy a beautiful box.  
Everything is very old on the flea market.

Alice buys a wonderful box and pays 50 Livendellis,  
it is a kind of money in Livendell.  
She is very happy and goes home on her space bike.

When she opens the box there is something inside.  
It is a golden seed! Alice wants to find a perfect place  
for her secret seed.  
Alice finds a hidden place at the back of the castle  
and puts it in the ground.  
The ground is special – blue, the best for plants.  
She wants to keep her seed in secret.

Every day Alice leaves the castle early in the morning and goes to water her seed, she uses special golden water.

She does it in secret, of course!

The plant grows very quickly and has a wonderful shape! Alice does not know what the name of the plant is.

It is a special plant!  
It is from another planet!

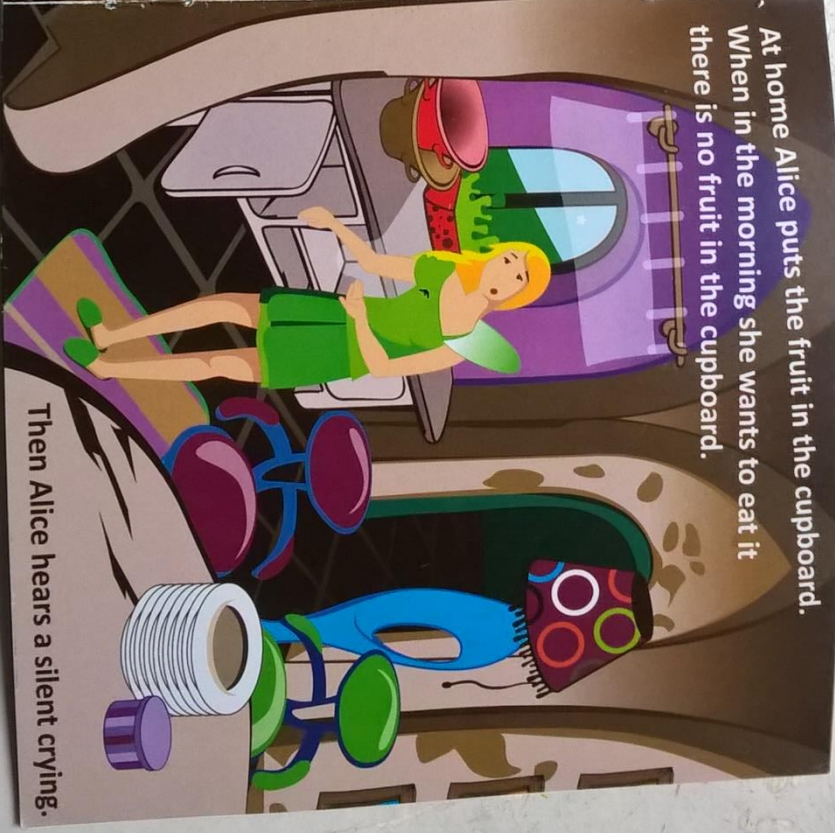

One day when Alice comes to water the plant she sees that her plant has got a fruit.

The fruit is colourful, large and a bit strange.

Alice takes the fruit and brings it home.

At home Alice puts the fruit in the cupboard. When in the morning she wants to eat it there is no fruit in the cupboard.

Then Alice hears a silent crying.

The crying comes from the living room.  
She goes there and under the carpet there  
is her fruit!  
It cries and it has got eyes and a mouth and a nose!  
The whole family hears the cry, it is now very loud.

They are all amazed with the fruit!  
The fruit wants to go back to its plant!

They all take the fruit to Alice's secret plant.

It is wonderful!

Suddenly the fruit jumps on the plant

and the whole plant flies in the air.

The fruit says, 'Goodbye my friends,

thank you! Visit me on my planet one day!

That was an amazing secret plant!

**Exercise:** Match the halves and then label the objects.

a plant

a space

a seed

a carpet

a cupboard

a planet
